(Immunity 34, 715–728; May 12, 2011)

In this paper, the standard gene symbol for hypoxia-inducible factor 1 $\alpha$  (HIF-1 $\alpha$ ) was erroneously indicated as *Setd2* instead of *Hif1 $\alpha$* . Therefore, readers are advised to read *Setd2* as *Hif1 $\alpha$* . The authors deeply regret this oversight and apologize for any confusion or inconvenience this might cause to the readership.
